

# Press Release

002/2010

February 15, 2010 - Budapest

FOR IMMEDIATE RELEASE

## **NNG Global Services Committed to Making 2010 the Year of Mobile Success Stories**

### **Hungarian NNG Global Services exhibits full range of mobile navigation solutions at Mobile World Congress**

Mobile World Congress, Barcelona – For the first time in the company's brief but dynamic history, NNG Global Services, a leading white-label navigation software provider, is exhibiting at Mobile World Congress 2010 in Barcelona, Spain. In cooperation with its map and content provider Navteq, NNG Global Services demonstrates its latest global wireless navigation solutions on three major platforms – Android, Windows Mobile and Apple's iPhone - and displays iGO My way versions that have successfully launched on partner devices in Q1 2010.

*"Mobile World Congress is the most important European event in the wireless sector, and we are very excited to be exhibiting with Navteq to demonstrate the potential of our products,"* said Tamás Vahl, Chief Executive Officer at NNG Global Services. *"We believe Mobile World Congress is the optimal chance for us to engage with major handset manufacturers and network operators to quickly increase our initial success in this industry."*

By attending the Barcelona show, NNG Global Services affirms its commitment to bringing its successful and innovative navigation technology to the mobile sector. NNG Global Services will be present at Mobile World Congress throughout its duration, 15-18 February 2010, and welcomes partners and guests in cooperation with Navteq in Hall 1 at booth 1D59.

---

### **About NNG Global Services LLC.**

NNG Global Services is a group of leading navigation solution providers for the Wireless, Automotive and Personal navigation industries, and offers fully customizable, on-board, 3D navigation applications to device manufacturers, auto makers and OEM brands that are custom built according to each customer's needs. The core technology is based on the group's award-winning software engine, already installed in millions of navigation devices throughout the world.

The group also develops its own mobile games and digital maps. Its first product was launched in Germany at CeBIT 2006. Since then, NNG Global Services has formed partnerships with more than 70 hardware manufacturers worldwide. It provides reliable navigation solutions for more than 70 countries and in 45 different languages.
